

# LOVE NOT HATE CAMPAIGN – UNITE TO LEGISLATE AGAINST HATE CRIME

## PLEASE SUPPORT OUR PETITION:

To: Minister for Justice and Equality

We are calling for the government to enact the proposed Criminal Law (Hate Crime) Bill immediately, to protect people from various minorities in Ireland. We want our government to protect those among us who are perceived to be different because of our skin colour, religion, ethnicity, sexual orientation, gender identity, age, different physical or mental abilities and so on. We want to help break the silence on hate crime, encourage people to report racism and other hate attacks and to find effective ways to address it. This legislation can help to achieve that.
