

LOVE NOT HATE CAMPAIGN – UNITE TO LEGISLATE AGAINST HATE CRIME

PLEASE SUPPORT OUR PETITION:

To: Minister for Justice and Equality Charles Flanagan

We are calling for the government to introduce hate crime legislation immediately, to protect people from various minorities in Ireland. We want our government to protect those among us who are perceived to be different because of our skin colour, religion, ethnicity, sexual orientation, gender identity, age, different physical or mental abilities and so on. We want to help break the silence on hate crime, encourage people to report racism and other hate attacks against minorities and to find effective ways to address it. This legislation can help to achieve that.

NOTE: You also agree to keeping you informed about our campaign. Your contact details will not be displayed publicly and will be delivered to the Minister with the petition.
